

Brand Ambassadors

TalkingRugbyUnion can assist you with working alongside your existing brand ambassador(s) or finding the right ambassador(s) for your brand.

Effective use of brand ambassador adds visibility to your brand as part of your marketing strategy

We can create high quality content with these ambassadors to target your specific corporate requirements – Brand awareness, Product endorsements or Corporate Social Responsibility – or to create buzz for new products or seasonal campaigns

The brand ambassadors can then upload the content to their social media channels or share your brand messages with their followers - connecting those activities with your business strategies
